Bio:
As a physician, I strongly believe that we need better and more advanced therapies to treat cancer, but I also feel it is very important to carefully tailor the treatment to the individual patient. There is an increasing array of options for treatment for cancer including chemotherapy, targeted therapies, surgery and radiation and many patients need a combined and coordinated strategy that may include several of these options to achieve the optimal results. We have excellent surgeons and radiation therapists at UC San Diego Healthcare and we work closely as a team to provide the best possible care for our patients.

Bio:
Dan Kaufman, MD, PhD, is a board-certified hematologist who specializes in caring for patients with blood cancers such as leukemia, lymphoma and myeloma. He is one of the physicians with the joint UC San Diego Health / Sharp HealthCare Blood and Marrow Transplantation (BMT) Program, which provides patients with the unique opportunity to receive care from the same physician throughout all phases of blood cancer treatment. This includes initial consultation and diagnosis, treatment to help achieve remission, care during stem cell transplant procedures, and follow-up survivorship care. Dr. Kaufman’s expertise and areas of interest include cell-based immunotherapies, stem cells, regenerative medicine and natural killer (NK) cell-mediated therapy. He offers chimeric antigen receptor (CAR) T-cell therapy to adults with relapsed or refractory B-cell lymphoma, a type of non-Hodgkin lymphoma. CAR T-cell therapy harnesses the patient’s own immune cells to recognize and kill cancer cells. It is just one of many types of personalized cancer therapies offered at UC San Diego Health.

Bio:
As a physician, I strongly believe that we need better and more advanced therapies to treat cancer, but I also feel it is very important to carefully tailor the treatment to the individual patient. There is an increasing array of options for treatment for cancer including chemotherapy, targeted therapies, surgery and radiation and many patients need a combined and coordinated strategy that may include several of these options to achieve the optimal results. We have excellent surgeons and radiation therapists at UC San Diego Healthcare and we work closely as a team to provide the best possible care for our patients.
