Bio:
Dr. Brown is world renown for his contributions to basic and clinical research of the cornea, and has many “firsts.” He was the first to initiate studies into the surface characteristics of the component of the pre-corneal tear film, was the first to implicate that collagenase was responsible for corneal ulcers after alkali burn, and was the first to develop a collagen research laboratory for the eye and to initiate biochemical and cell biological studies on the structural macromolecules of the cornea. Dr. Brown was also the first to show that severely alkali-burned cornea can be successfully transplanted, resulting in many patients across the world to see whereas this was once considered a hopeless condition. Over thirty years ago, he developed corneal transplantation in babies born blind from corneal opacities. Since few surgeons in the world feel comfortable with this complicated procedure, infants and children from all over the world come to Shiley Eye Institute for their care.

Bio:
Michelle L. Leff, MD, is a board-certified pediatrician who specializes in the care of newborns. She also provides primary care for infants, children, and adolescents through all of their life stages. As a newborn hospitalist, Dr. Leff meets with parents and their babies during their postpartum stay in the hospital, providing daily care to infants. This care includes newborn examinations, screening tests and breastfeeding help, including frenotomies.
Primary Care

Primary care is the basic level of medical care at which a patient is evaluated and treated by a nurse or physician, and if necessary, is then referred to a medical specialist. Learn more about primary care at UC San Diego Health System.

Bio:  
Lawrence Ma, MD, is a board-certified pediatrician and internal medicine doctor who provides primary care for children, adults and seniors, including preventive care and diagnosis and treatment of acute and chronic diseases. He is a part of UC San Diego Health's pediatrics program, which offers comprehensive care for infants, children and teenagers, through all their developmental stages, in a supportive, family-friendly environment. Specifically, Dr. Ma’s areas of care focus on children with complex medical problems and helping them transition to adult care. He also has advanced training in geriatric medicine, and has a special interest in maintaining the health and wellness of older adults as they transition through the stages of aging.
