Bio:
Edward Ball, MD, is a board-certified hematologist and medical oncologist who treats individuals with blood-related cancers such as leukemia and lymphoma. In his role as director and chief of the Blood and Marrow Transplant Program, he leads an interdisciplinary team of physicians, advanced practitioners, nurses, social workers and support staff. Dr. Ball offers chimeric antigen receptor (CAR) T-cell therapy to adults with relapsed or refractory B-cell lymphoma, a type of non-Hodgkin lymphoma. CAR T-cell therapy harnesses the patient’s own immune cells to recognize and kill cancer cells. It is just one of many types of personalized cancer therapies offered at UC San Diego Health.

Direct Clinic Line: (858) 657-6100
Direct Clinic Line: (858) 822-6191

Bio:
As a physician, I strongly believe that we need better and more advanced therapies to treat cancer, but I also feel it is very important to carefully tailor the treatment to the individual patient. There is an increasing array of options for treatment for cancer including chemotherapy, targeted therapies, surgery and radiation and many patients need a combined and coordinated strategy that may include several of these options to achieve the optimal results. We have excellent surgeons and radiation therapists at UC San Diego Healthcare and we work closely as a team to provide the best possible care for our patients.

Sanford J Shattil, MD
Professor of Medicine

Specialties:
Cancer, Hematology/Blood Diseases

Moores Cancer Center

Contact:
New Patient Registration: (800) 926-8273

Bio:
Dr. Shattil's clinical interests are in general hematology, with a particular focus on disorders of blood platelets, bleeding disorders and the diagnosis and treatment of arterial and venous thrombosis. His basic research interests are in the areas of cell adhesion and cell signaling in normal and abnormal blood and vascular cells.
