UC San Diego Health Physician Directory

Our physicians are recognized leaders in their professional societies, heading national organizations and committees dedicated to improving care and advancing knowledge about disease. They are prominently listed in publications such as America’s Top Doctors and *U.S. News & World Report*’s rankings of outstanding physicians and clinical programs.

**Patient Access**

**Request an Appointment**
Whether you’re looking for a primary care physician (PCP), need a specialist for treatment or are seeking a second opinion, you can make an appointment by following the steps below:

- **New Patients (who have never seen a UC San Diego Health provider)**
  To register as a new patient and schedule an appointment, call **800-926-8273**, Monday through Friday, 8 a.m. to 5 p.m.

- **Current Patients**
  Contact your physician’s office directly to schedule an appointment or call the main switchboard number, **858-657-7000**, and ask to be transferred to your physician’s office.

- **Find a Doctor**
  To use our physician search website to find a physician by name or to search for a specialist, visit: [doctors.ucsd.edu](http://doctors.ucsd.edu).

**Referring Physician Access**

**Transfer a Patient**
For hospital-to-hospital transfers, call **619-543-5709** (24-hour service) for instructions or to speak to a transfer coordinator.

**Consultations**
If you need to talk with one of our physicians about a case or if you have any problems or concerns, please contact us at **855-543-0555** from 8 a.m. to 5 p.m. We want to hear from you.

**Refer Your Patient**
Call Physician Access at **855-543-0555** or fax **888-539-8781** and our team will register and schedule your referred patient. You will receive follow-up communication (consultation notes, discharges, etc.), as well as access to our electronic medical record system, UCSD Link.

Gary S. Firestein, MD
Associate Vice Chancellor and Dean of Translational Medicine
Professor

Specialty:
Rheumatology

Hillcrest - Medical Offices South

Contact:
New Patient Registration: (800) 926-8273

Bio:
Dr. Firestein's research efforts have focused on the pathogenesis of rheumatoid arthritis (RA). His laboratory helped define the synovial cytokine profile of RA and demonstrated the dominance of macrophage and fibroblast products as opposed to the expected T cell cytokines. These studies contributed to the development of the highly effective anti-TNF approaches in RA. Recently, Dr. Firestein has focused his attention on synoviocyte transformation in RA as a mechanism of joint destruction. His group was the first to describe somatic mutations in the p53 tumor suppressor genes in the RA synovium. The mutations were subsequently demonstrated to be dominant negative and increased the cartilage invasiveness of these cells. Dr. Firestein's laboratory has also worked extensively on metalloproteinase and cytokine gene regulation in synoviocytes by MAP kinases and NF-kB as well as on novel gene therapy approaches to RA.
